July 2013

A Note from the Agent - Dani

SUCCESS!

...is something that we all want for ourselves, our own children, and for the youth that we work with. And yet, how do we measure success?

In 4-H, we have a variety of ways of measuring success. As youth watch and listen to their parents and other adults, they may come to think of success as achievement, they may see success as ribbons or awards earned, a large fair check, or coming out on top.

Hopefully, youth learn to define success by such measures as learning, growing in skills and confidence, reaching personal goals, doing better than before, and helping others. Please consider the following saying. I believe it provides a wonderful example for adults who wish to be role models for some of the most meaningful kinds of success.

To laugh often, to win the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty, to find the best in others; to leave this world a bit better, whether by a healthy child, a garden patch...to know even one life has breathed easier because you have lived. This is to have succeeded!

— Ralph Waldo Emerson

4-H provides us with the daily opportunity to be role models of the kind of success that leads to a fulfilled life and making a difference for others. What lessons about success are you learning from each of us?

Jessica Jens—Former Sauk County 4-H Agent & Upham Woods Director

fairs are for learning! Whether you receive a blue or pink ribbon, it is what you learn at the fair that is important. Be sure to keep your ears and mind open when the judges are speaking. Judges are teachers and exhibitors should be learners. Whether you agree with the judge or not, remember that the judge is human and interested in helping you learn.

fairs are for fun! Use the fair as a chance to meet new people and get reacquainted with those you have met in the past.

fairs are for everyone! Not only 4-H members, but parents, leaders, cousins, friends, and everyone else who comes to the fair. While they are there, let us show and tell them what 4-H is all about. Let's make the fair 4-H promotion week.

fairs are for cool heads and cooperation. The heat, excitement, and desire to do well at the fair can sometimes lead to misunderstandings. Sometimes we forget that we are all after the same goal: to help kids learn and have fun. If everyone works toward cooperation, everyone will end up winning in the end.

- ★ 44,757 young people belong to 2,229 4-H clubs in the state.
- ★ A total of 193,819 youth participate in 4-H youth development programs.
- ★ 20,125 adults participate at 4-H volunteer leaders.
- ★ 5,377 young people are youth volunteer leaders.

**NEW!
This Fall!**

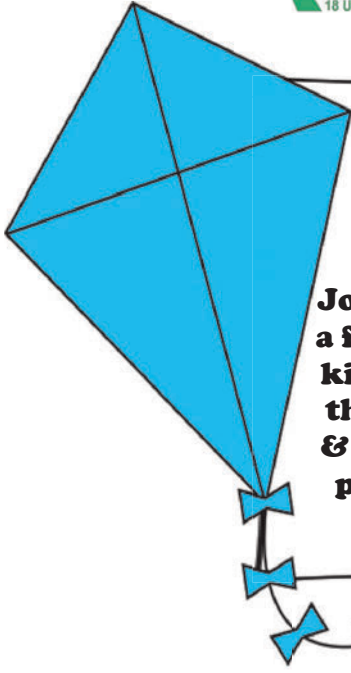

New On-line Enrollment Process for 2013-2014 4-H Year!

Starting this fall, families will be able to enroll in 4-H on-line. We are excited about this new program because it will allow families to enter and manage their own information. The program was designed for use with all Internet connections, including dial-up, DSL, and broadband. It is easy to use and will give families the opportunity to update their personal information, look up projects they are enrolled in, read the newsletter, receive announcements about 4-H activities, and more. It will be convenient, because families will be able to access their information any time of the day. Family friendly instructions will be provided to you later this summer.

Traditional paper enrollment will continue to be available.

Animal Sciences

Share your Resources!

Many youth have an interest in learning about animals. Yet, many do not have the facility to house them. Therefore, they can't experience what raising an animal is all about. Wait a moment, why not share your facility and mentor a child? Imagine it...a young 4-H member ready and eager to learn, their mind like a sponge waiting to absorb every word you say – you plant the seed. They grow along with their project – you cultivate them by letting them learn, try and experience. Now, it is time to harvest your crop – you set them out to show their work. Yes, they may not get a blue ribbon but they have received

so, so much more...they have received skills, knowledge and understanding. Bet you never knew the power you have within you.

We would like to create a contact list that we can share with youth who are interested in such an experience. If you can share your facility and mentor a child; then let us know...we'd love to hear from you. Sharing is something that can change so many things; it can shape not only today but tomorrow too. The key to the whole thing is you!

Spoooner Sheep Day

The 61st Spoooner Sheep Day will be held at the Spoooner Agricultural Research Station on Saturday, August 17, 2013. The Spoooner Sheep Day has a long tradition of providing useful information to the state's sheep producers and is the longest-running agricultural field day of the many held each year by the University of Wisconsin-Madison, College of Agricultural and Life Sciences.

Registration will begin at the station headquarters at 9:00 a.m. with the program ending at approximately 2:30 p.m. This year's program will present some exciting new information on a commercial genetic test for susceptibility to disease. A new breed of sheep, Awassi, has been introduced into the U.S. by Larry Meisegeier on his farm near Bruce, WI, and he will talk about his experiences. Also, short presentations of other current research projects from the UW-Madison sheep research program will be presented. The complete program can be viewed at the UW-Madison Small Ruminant web site: <http://fyi.uwex.edu/wisheepandgoat/>.

A delicious lamb lunch will be served at noon at a cost of \$8.00 per adult, \$5.00 for children ages 5 to 11, and free for children under 5. Advanced reservations are not required. For more information, contact Lorraine Toman at the Spoooner Agricultural Research Station (715-635-3735, lltoman@wisc.edu) or Dave Thomas on the UW-Madison campus (608-263-4306, dlthomas@wisc.edu).

The Spoooner Sheep Day is sponsored by the Department of Animal Sciences and the Agricultural Research Stations of the University of Wisconsin-Madison, College of Agricultural and Life Sciences, and Cooperative Extension of the University of Wisconsin-Extension.

Statewide Training for 4-H Photo Leaders & Judges

Please mark your calendars for "Foto Follies 2013," a statewide training program for Wisconsin 4-H youth and adult photo leaders and county fair judges, to be held Sept. 13-15, at Upham Woods Environmental Education Center, Wisconsin Dells.

The conference begins with registration at 6 p.m. on Friday and ends at 11:30 a.m. on Sunday. It will feature a variety of sessions for adult and youth 4-H photo leaders, as well as training for those who want to be registered as county fair photography judges.

The conference costs \$80 per person if you stay in the lodge, and \$76 if you stay in a cabin. This fee will cover five workshop sessions; keynote talk by Daniel Johnson, author of the 4-H Guide to Digital Photography; personal photo critiques; morning photo walks; evening photo activities; two breakfasts, a lunch and a dinner; two nights lodging in a dorm or cabin; and all program materials. All youth leaders must be at least in high school starting in the fall of 2013 and accompanied by an adult.

Registration deadline is Monday, Aug. 5, 2013, and space is limited so you will want to register as soon as possible.

For adult and youth 4-H photo volunteers, the conference will

focus on ideas and information on how you can be an effective leader, with an emphasis on resources and fun activities for teaching photography to young people and demonstrating how they can help their communities through photography.

You'll also have many opportunities to practice and improve your own photo-taking skills. Photo skills workshop choices include: getting to know your digital camera; how to make the most of your digital camera; taking candid photos of people and animals; how to make your best photo even better through photo editing; portraiture and lighting; photo composition and design; smart phone photography; still life photography; video storytelling; and outdoor photography.

Training for new and aspiring judges will cover the basics of Danish and conference judging photos at Wisconsin county fairs. You can use this opportunity to polish your judging skills or to become registered as a Dept. 20 county fair judge.

Download the Foto Follies 2013 agenda, program highlights, and registration form from the Foto Follies webpage at <http://www.uwex.edu/ces/4h/onlinpro/FotoFollies.cfm>.

Monday, August 12th Prairie Investigation

Students will learn what makes a prairie community, how the prairies of Crex were formed and maintained, and what species make the prairie their home. This session will feature a hands-on opportunity to analyze and collect species from one of Wisconsin's rarest remaining ecosystems. Make a field guide to carry with you on your adventure!

Tuesday, August 13th Animals Undercover

Students will identify common signs wildlife leave behind. Use of mounted animals and pelts will help students differentiate between various kinds of wildlife. Blindfolded students will be introduced to a diversity of animal skulls. They will learn how to navigate through wildlife field guides, sketch tracks, and make plaster casts of tracks.

Wednesday August 14th Web of Life

Students will get their feet wet to discover the importance of wetlands and learn about the species that live there. The session will feature hands-on opportunities to collect and view wetland species of all sizes and see the unseen with an electronic microscope.

Thursday August 15th Birds & Binocs

Blue jays squak, Crows caw and Cranes croak! Birds use these calls to send messages to other birds. We'll practice our bird songs and listening skills to learn several bird calls of common birds at Crex! Make bird feeders and binocs for a birding hike!

Share the Universe with Youth through Skynet Junior Scholars

FOR 4-H LEADERS and INFORMAL EDUCATORS

Would you like to participate? Neither a science or astronomy background is required. We'll provide all the training you need to guide your young astronomers through SJS activities. We will also provide ongoing online support to you and your Skynet Junior Scholars! Select an in-person or online workshop option. The time commitment is the same:

IN-PERSON WORKSHOPS

- Yerkes Observatory
Williams Bay, Wisconsin
September 13 - 15, 2013
- National Radio Astronomy Observatory
Green Bank, West Virginia
September 20 - 22, 2013

WOULD YOUR YOUTH LIKE TO OBSERVE THE UNIVERSE WITH REAL RESEARCH TELESCOPES?

We thought so! So, a group of dedicated scientists and astronomy educators created Skynet Junior Scholars. With a simple internet connection, young people can conduct all kinds of astronomy investigations with world-class telescopes in the US, Chile AND Australia. Suitable for middle school and older youth in 4-H clubs, afterschool and museum programs, Skynet Junior Scholars (SJS) offers:

- Access to Skynet Robotic Telescopes;
- Explorations: a series of inquiry-based STEM activities that engage young people in a variety of astronomy topics;
- Online web-portal allows youth to create an image gallery, share data with other young scientists, publish their results;
- Communication with astronomers, engineers, software developers and SJS staff;
- An opportunity for youth to advance, and assist astronomers with their projects.

Youth in your out-of-school-time programs may participate in SJS after you complete the SJS professional development workshop. In addition to your time and talent, participation in the project requires:

- 1) Your willingness to guide 5-10 youth through an SJS Exploration by May, 2014. Youth participants need access to reliable internet for the telescope activities, which can be pursued on their own. But we will rely on you to hold group discussions, and conduct activities in an out-of-school or club setting.
- 2) Availability and willingness to provide on-going feedback to staff and researchers in the project.

SJS is funded by:

Cedar Crest Ice Cream Holds Centennial Feature Flavor Contest for Wisconsin 4-H Clubs!

Cedar Crest Ice Cream of Cedarburg, Wisconsin and the Wisconsin

4-H Foundation present a Feature Flavor Contest in honor of Wisconsin 4-H's 100th birthday in 2014. All Wisconsin based 4-H groups may compete for a \$300 cash prize and an ice-cream party for club members. The winning flavor will be produced and distributed by Cedar Crest during June dairy month in 2014.

Kristi Thering-Tuschen, Executive Director of Development for the Wisconsin 4-H Foundation, says the contest "is a superb opportunity for participating 4-H youth to understand how diplomacy and democratic principles can be used

to determine which flavor is the most popular or which product name to advance, and get hands-on experience

developing a new ice cream product that will be on store shelves under Cedar Crest's label."

Entries will be judged by a panel chosen by Cedar Crest's staff.

Official ice cream contest entry forms may be found on Cedar Crest's website: www.cedarcresticecream.com and the Wisconsin 4-H Foundation's website: <http://wis4hfoundation.org>, or contact Cedar Crest by phone at 800-877-8341.

Leaders' Association Meeting Minutes

June 10, 2013

President Phil Stiemann called the meeting to order at 7:00 pm. The pledges were recited. Members present: Philip Stiemann, Sheryl Stiemann, Charlene Strabel, Amy Kopecky, Dani Ganje, Don Strabel, Carol Lanza, Susie Janssen, Marge Peterson, and Olivia Kopecky.

Motion by Phil to approve Secretary's report. Second by Amy. Motion carried. Motion by Sheryl to approve Treasurer's report and pay bills. Second by Marge. Motion carried.

Club reports:

Jolly Hs: offered kid activities at Big Gust weekend in Grantsburg;

Orange: Dani was at the last meeting; talked about participating in Dairy Days; plan to have a club work day to work on by-laws, projects and float/booth ideas;

Wood Creek: Had a meeting at the beginning of June. Demonstrations were given by Joel and Nicholas (Dirt cups), Josie Richards (cinnamon apples) and Ben Johnson (fileting a fish); working on club tour for July; working at Dairy Days;

Wood River Beavers: none available

Extension: Passed around a thank-you note from Brooke Beecroft for the grant money; been busy planning summer events; Cloverbud Camping trip registrations were due today—they will need 5 kids to go; hired Olivia Kopecky as the summer intern—she started June 7th—she will be the primary advisor for the Jr. Leaders this summer as well as working at other extension events.

Old Business:

**Foods and Clothing Revue went fine...not many entries. If anyone has ideas of how to get more kids involved, please let Sheryl or Dani know.

**County trip—no new details

New Business:

**Dairy Days will be June 21-22nd. Orange and Wood Creek signed up for shifts. Dani will contact WRB and JH to schedule them.

**Junior Leaders would like to sell popcorn at grandstand events during the Webster Fair. It should not conflict with anything with the rodeo or the demo derby.

**Sunday before Webster Fair is the clean-up day with a pot luck to follow. There will be different work nights throughout the summer.

**May be some club-against-club activities at the Webster Fair (such as kick-ball, softball)

**Discussed 4-H's 100th anniversary that will occur in 2014....maybe set up a committee to determine if anyone wants to go and what we might do to commemorate it. Junior Leaders had an idea last month about creating t-shirts for the event. Maybe this is something to bring up with each club and see if there is something they would like to do to celebrate.

Next meeting is scheduled for July 8, 2013 at 7:00 pm

Respectfully submitted,

Sheryl Stiemann, Leaders' Association Secretary
